Journal of Computational and Applied Mathematics 70 (1996) 357–358

JOURNAL OF COMPUTATIONAL AND APPLIED MATHEMATICS

Author Index to Volume 70 (1996)

(The issue number is given in front of the page numbers.)

Ashwin, P., K. Böhmer and **Z. Mei,** Forced symmetry breaking of homoclinic cycles in a PDE with O(2) symmetry (2) 297–310

Bainov, D.D., A.B. Dishliev and **I.M. Stamova,** Lipschitz quasistability of impulsive differential-difference equations with variable impulsive perturbations (2) 267–277

Bainov, D.D., Z. Kamont and **E. Minchev,** Monotone iterative methods for impulsive hyperbolic differential-functional equations (2) 329–347

Bielawski, S.S., S.G. Mulyarchik and **A.V. Popov,** The construction of an algebraically reduced system for the acceleration of preconditioned conjugate gradients (2) 189–200

Böckmann, C., Curve fitting and identification of physical spectra (2) 207–224

Böhmer, K., see **Ashwin, P.** (2) 297–310

Bojanov, B., On a quadrature formula of Micchelli and Rivlin (2) 349–356

Bokhari, M.A. and **M. Iqbal,** L_2-approximation of real-valued functions with interpolatory constraints (2) 201–205

Brutman, L., On the Vykhandu–Levin iterative method for numerical solution of nonlinear systems (1) 51–56

Chakrabarti, A. and **Hamsapriye,** Derivation of a general mixed interpolation formula (1) 161–172

Dishliev, A.B., see **Bainov, D.D.** (2) 267–277

Douak, K. The relation of the d-orthogonal polynomials to the Appell polynomials (2) 279–295

Dubach, E., Artificial boundary conditions for diffusion equations: Numerical study (1) 127–144

George, K., see **Mohanty, R.K.** (2) 231–243

Hamsapriye, see **Chakrabarti, A.** (1) 161–172

Hossain, Md.B., see **Sen, R.N.** (1) 33–50

Iqbal, M., see **Bokhari, M.A.** (2) 201–205

Jain, M.K., see **Mohanty, R.K.** (1) 15–32

Jain, M.K., see **Mohanty, R.K.** (2) 231–243

Jin, X.-Q., Band Toeplitz preconditioners for block Toeplitz systems (2) 225–230

Kamont, Z., see **Bainov, D.D.** (2) 329–347

Lima, P.M., Numerical methods and asymptotic error expansions for the Emden–Fowler equations (2) 245–266

Lobanov, Yu.Yu., R.R. Shahbagian and **E.P. Zhidkov,** Computation of multiple functional integrals in quantum physics (1) 145–160

Lowe, B.D. and **W. Rundell,** The determination of a coefficient in an elliptic equation from average flux data (1) 173–187

Marin, M., Some basic theorems in elastostatics of micropolar materials with voids (1) 115–126

Mastronardi, N. and **D. Occorsio,** Some numerical algorithms to evaluate Hadamard finite-part integrals (1) 75–93

Medina, R., Asymptotic properties of solutions of nonlinear difference equations (1) 57–66

Mei, Z., see **Ashwin, P.** (2) 297–310

Minchev, E., see **Bainov, D.D.** (2) 329–347

Mohanty, R.K. and **M.K. Jain,** High accuracy difference schemes for the system of two space nonlinear parabolic differential equations with mixed derivatives and variable coefficients (1) 15–32

Mohanty, R.K., M.K. Jain and **K. George,** High order difference schemes for the system of two space second order nonlinear hyperbolic equations with variable coefficients (2) 231–243

Mulyarchik, S.G., see **Bielawski, S.S.** (2) 189–200

Occorsio, D., see **Mastronardi, N.** (1) 75–93
